

Birding in the East

Mongolia is a superb birding destination. The Eastern Mongolia is rich with wildlife and endless steppes with lakes, all remote, beautiful, fascinating and full of birds.

It is home to around 497 species of birds which include globally scarce species such as Bar-headed Goose, Swan Goose, Siberian Crane, Hooded Crane, White-naped Crane, Falcated Duck, Asian Dowitcher, Red-necked Phalarope and Great Bustard. Raptors are plentiful in this vast country, with good populations of Black Vulture, White Tailed Eagle, Upland Buzzard, Saker Falcon and Amur Falcon. This trip will be more than just birding tour - it will be a true adventures travel. Our birding journey will go through Ikh Nart Nature Reserve, Gun Galuut Nature Reserve and in the Khan Khentii Strictly Protected Area.

Day 1: To Ikh Nart Nature Reserve

We pick you up from your hotel in Ulaanbaatar in the morning and transfer to IkhNart Rocks Ger Camp directly by vehicle. We spend about six hours traveling southeast over the grassland, which gradually turns into more arid Gobi steppe. After arrival at the camp check-in to your ger and have free time to explore the surrounding area for birds.

Day 2-3: Ikh Nart Nature Reserve
